

# The Azawakh Aegis

*A Publication of the American Azawakh Association*

VOLUME 1, NUMBER 1, OCTOBER 1998

## **The President's Report**

*Bonnie Lee Saher, President AAA*

to the AAA membership:

As the new President of The Azawakh Club of America, I would like to thank the the members for electing me. I hope I can do as good a job as the former President, Andy Meyers, who served out two terms, and made great strides in the registry.

As we enter a new century, a great deal of interest is centered on the rare breed. More and more people recognize the Azawakh, when they see one. Never before have rare breeds had such a chance at the spotlight. We have to be prepared to guide admirers in the right direction. To do this we have to become more united as a club, and more responsible on issues and values. It is indeed a great opportunity to see everything our

breed is capable of, and to expand their horizons and ours.

It's important we decide the way our club is to go to work on the issues, the standard, shows & specialties, obedience, agility, and health clinics. In all areas of the country, it would be ideal if we could make our breed available for special displays, pet fairs, and special booths at AKC shows that are responsive to rare breeds. It is only this way that our breed will flourish and not drop by the wayside into obscurity. We need to educate the common man, for if no one ever hears of an Azawakh they are not likely to want one. Of course we want to be sure all new found admirers understand our breed. When they do they will realize how wonderful they are.

As your new President, I am open to all your ideas, all your problems and criticisms. My own personal hopes and dreams would be a book devoted to the breed. With old pedigrees, stories, pic-

tures, and a standard with diagrams similar to the AKC book. Perhaps even a club book, like the other sighthound clubs do (Greyhound s, etc.). With everyone sending their pictures, pedigrees and breed stories of their kennel.

I know we are a small growing club, but united we could be a giant force. We stand in the doorway of mold and shaping our quintessential hounds.

Bonnie -
